Product Description

1. This winding machine utilizes a unidirectional servo motor for winding. After winding, it automatically cuts, flattens, welds the inner and outer rings, and weighs and sorts the strips.
2. The guide pulley allows for continuous feeding, either unwinding or dropping the strip. The magnetic field adjusts the tension, minimizing wear.
3. The machine's feed chute guides the strips for easy adjustment and a wide width range.

Technical Parameters

Winding Specifications: Inner Diameter Φ 25mm-60mm

Outer Diameter Φ 26mm-90mm

Strip Width 10mm-50mm

Air Pressure Requirement: 0.5MPa-0.8MPa

Power Supply: AC220V 50Hz

Power: 2100W

Dimensions (LWH): 2370 x 1060 x 1700mm
